3. Lead Partner control confirmation

Based on our and the project partner controllers' examination, we confirm the following:

1. For this report the total paid and confirmed expenditure amounts to 0,00 €
2. The rules listed in the subsidy contract have been observed, including, but not limited to rules governing the eligibility of expenditure (Article 56 of Regulation (EC) No 1083/2006, Article 7 of Regulation (EC) No 1080/2006, Article 48 to 53 of Regulation (EC) No 1828/2006, relevant national and internal regulations of the partners and rules laid down in the latest version of the INTERREG IVC programme manual).
3. The costs reported in this report refer to activities paid from the date of approval by the Monitoring Committee to the end of the reporting period. Costs reported under the component 'preparation activities' were incurred between 1 January 2007 and the date on which the first version of the application form approved by the approved by the Monitoring Committee has been submitted. They were paid out by the end date of the first reporting period.
4. Receipts and payments are accurately recorded in the project's accounting system, expenditure in another currency other than the Euro was correctly converted, assets are properly recorded and amounts are correctly reflected in demands for payment. Any revenues generated were deducted from the eligible expenditure. The necessary audit trail exists for all activities, providing evidence in the form of contracts, invoices and payment records. In case of staff costs, administration costs, the necessary evidence exists in the form of timesheets, listings of costs or formula descriptions and cost calculations.
5. Services, supplies and works have been procured on the basis of proper call for tenders in compliance with European, national, internal or other relevant rules, sound controls have been exerted over the opening of the tenders and all tenders have been fully evaluated before the final decision has been made on the service provider, supplier or works contractor.
6. Progress made has been fully and fairly reflected in the report. There is evidence that the reported activities have taken place, delivery of services and goods, and works are in progress or have been completed. The expenditure exclusively refers to activities listed in the latest approved version of the application form and completed at the latest by the end of the approved finalisation month.
7. The partners have complied with Community rules and policies including publicity, information, equal opportunities, protection of environment, state aid, competition and public procurement.
8. All inputs for the progress report received from the partners were confirmed by an authorised controller in respect of the country specific control requirements as announced on the INTERREG IVC website (in respect of Article 16 of Regulation (EC) No 1080/2006). The partner control confirmations for the expenditure reported by each partner in this report were provided by the project partners and signed by the authorized controllers.
9. The project's activities have started and are implemented in accordance with the stipulations of Article 6 (1) of the subsidy contract.

I hereby confirm that I / the company is independent from the project's activities and financial management and authorized to carry out the control in the EU-Member State/Norway on whose territory the Lead Partner is located.

General instructions for filling in the progress report

When to submit the report to the JTS?

This form shall be used by the project's Lead Partner to provide content-related and financial information on the progress of the project's implementation. Unless indicated otherwise by the Joint Technical Secretariat, the reporting periods are January - June and July - December of each calendar year. The report must be submitted within three months after the last day of the reporting period. For the reporting period of January - June, the report must be submitted by 1 October of the same year. For the reporting period July - December, the report must be submitted by 1 April of the following year.

What to submit to the JTS?

The electronic version of the entire progress report and the paper version of the "Printable Summary" (first worksheet) only must be submitted to the Joint Technical Secretariat by the above-mentioned deadlines. This "Printable Summary" of the report shall bear the signatures of the authorised official of the Lead Partner institution and the independent first level controller selected by the Lead Partner institution. **It must be accompanied by the partner control confirmations of all partners reporting expenditure. In addition, partners from countries where the first level control is decentralised, and in case of the first reporting only or in case of change, must also provide the approbation certificate.** Three copies of the main publicity materials (e.g. project's brochure/leaflet, good practice guide, final publication) issued during the reporting period have also to be submitted to the JTS. All other promotional materials can be provided in electronic version.

How to fill in the report?

Only the white fields of the report have to be filled in. Grey fields are pre-filled and can include information from the original application form, from the previous progress report, or from the current report itself (through automatic links and calculations).

Only once the final version of the progress report is ready to be submitted and no further changes will be made, should the Lead Partner click on the button "Finalise & Print & Save" on the first page of the progress report. This creates a control number that appears on the right side of the report as well as on the first page of the "Printable Summary". This control number verifies that the electronic and paper versions submitted are identical. This process may take a few minutes, and once completed the print and save menu will appear.

Please ensure to use Microsoft Excel under Windows with Macros enabled; using other systems/programmes might damage this template.

Please ensure that the same control number appears on both the electronic report and the printed summary before submitting to the JTS.

More detailed information on implementation requirements is provided in the Programme Manual. For any further information on progress report and monitoring procedures, Lead Partners should not hesitate to contact the Joint Technical Secretariat.

The Excel protection of the form must not be removed.

Checklist for submission

Please make sure that you have fulfilled all the requirements listed below before submitting the documents.

1. The report is protected and the protection has not been removed during the form's completion.
2. The paper version of the progress report is complete. All the relevant worksheets are filled in and provided.
3. The paper version is signed, stamped and dated by a duly authorised representative of the Lead partner institution.
4. The "Lead Partner control confirmation" is signed, stamped and dated by an independent controller.
5. The text of the "Lead Partner control confirmation" has not been amended.
6. The electronic and paper version of the report are identical.
7. Activities and outputs are clearly reported against the original work plan (component description for the respective reporting period) in the contracted version of the application form.
8. All deviations from the originally planned activities and outputs are explained and justified.
9. No error messages in the progress report indicating budget injuries (in total, in components, in budget lines) appear in the progress report.
10. Any over- or underspending compared with the payment forecast and to the original budget by budget line, component and partner is explained and justified.
11. The budget lines "external expertise and services" and "equipment" are specified. Deviations from the original specifications are explained and justified.
12. Country specific first level control requirements are respected for all partners (cf. www.interreg4c.eu).
13. Partner control confirmations are provided as an annex to the progress report for all project partners' reporting expenditure.
14. The Lead Partner is aware that the "Finalise & Print & Save" button has to be clicked once the report is completely filled in and no further changes will be made. The Lead Partner will verify that the Control number (control number) is the same on the printed and the electronic version.

Incomplete, all check boxes have to be ticked

I. General information on the project's implementation

This part of the report should provide an overview of the project's implementation, i.e. the project's achievements so far, the involvement of partners, the use of different funding sources as well as the problems encountered.

I.1 Update of contact details

Did the contact details of the Lead Partner/project manager/financial manager/project partners/first level controllers change?

If yes, then please go to the worksheet "ContactDetails" of the progress report and update the contact details. For progress report 1 it is necessary to provide the Lead Partner's bank details, the project coordinator's and financial manager's contact details and the first level controllers' contact details for all partners.

I.2 Summary of the project's achievements so far

*Please provide a brief overall summary of the project's achievements **from the start of the project until now**. Information shall be provided on the main activities as well as the achieved results and produced outputs. It is advised that this field is filled in after the rest of the progress report has been completed.*

Please note that this summary information will be published on the programme's website. Thus it should be easy readable, self-explanatory and without references to other parts of the reporting form or other documents.

I.3 Project's website

Website:

I.4 Involvement of partners

Please describe the involvement of partners in the implementation of the project during the current reporting period. Was the involvement of partners according to the plans or did you encounter any problems?

I.5 Involvement of partners not financed by INTERREG IVC

If applicable, please describe any developments with regard to the partners or parts of the project not co-financed by the INTERREG IVC programme.

I.6 Problems encountered and solutions found / proposed

1.6.a Concerning activities or partnership, please state any problems encountered during the current reporting period, the impact of these problems and the solutions proposed.

1.6.b Concerning finances, please state any problems encountered during the current reporting period, explain the reasons and propose solutions, in particular concerning:

- *general under/overspending,*
- *expenditure that has been paid out during this period but exceptionally could not be reported (amounts per partner to be indicated)*
- *and problems with Lead Partner/partner's first level control.*

Have any corrections of already reported expenditure been undertaken in this report?

No

If yes, please download a financial correction sheet from the INTERREG IVC website and submit it as an annex to this progress report.

I.7 On-the-spot check

Please provide below information concerning the on-the-spot checks carried out by the first level control (information can be found in the section "Control Information" of the Control Report of the corresponding partner).

I.8 Further information (if applicable)

If you wish to report on any other issues not covered yet in the other parts of this report, please use the following section.

II. Detailed reporting per component

This part of the report is dedicated to the detailed reporting per component. Apart from component 0 (preparation activities), the reporting per component consists of three main sections. The first section is dedicated to the reporting of output and result indicators. These indicators are taken from the approved application form; they can be either pre-defined at programme level or self-defined by the project. The completion of this section is particularly important since it directly contributes to the monitoring of the programme's implementation and success. The second section is dedicated to the detailed description of the activities and outputs of the reporting period. The third and last section focuses on the financial reporting of the component.

*** Please go to C) Specification of budget line No 5 'Equipment'*

Deviations from the original plans

Please explain and justify any financial deviations that occurred in this reporting period, e.g. if you exceeded the total budget by budget line or component, if there are discrepancies between the activities described and finances reported.

B) Specification of budget line No 4 'External expertise and services'

Please provide information on "External expertise" costs paid and certified. For each cost item provide clear specification of the sub-contracted expertise including information on the partner responsible for sub-contracting, the sub-contracted body and the corresponding amount. Note that the description and the amount should allow a clear link to the description stated in the approved application.

If necessary two lines can be used for the description of the same cost.
